ABOUT

Name : Vvis Ananchiratavat
 Gender : Male
 Date of Birth : 25 July 1999

My name is Vvis, a recent graduate in architecture and design as of June 2023, equipped with a competitive background and a profound passion for the art of design. My expertise spans various architectural styles, including Destruction, Parametricism, Modern Tropical, and Modernization. I am distinguished by my creative problem-solving and meticulous attention to detail. Proficient in leveraging technology, I craft designs that seamlessly merge efficiency with sustainability. My commitment to excellence and staying abreast of industry trends underscores my dedication to delivering professional and powerful design solutions.

EDUCATION

2018 - 2023

Bachelor of Architecture
 Bangkok University, Thailand

I am a scholarship student who completed a five-year architecture course, which included internships and practical work. Throughout my studies, I have successfully balanced academic learning with hands-on architectural experiences. I have honed my skills across various architectural styles, including Deconstruction, Parametricism, Modern Tropical and renovation. Additionally, I am skilled in interior design, creating visually appealing and functional spaces. My work emphasizes the effective use of technology as an analytical tool and a foundation for the development of practical design theories.

EXPERIENCE

2019 - 2020 TIJ (Thailand Institute of Justice)

- Temporary accommodation / restaurant (women prison) from the outset of the design to the conclusion

2019 - 2020 Outdoor tiger(kumamoto,Japan) 1 Week

- Landscape and Garden design

2022 - 2033 Internship Architect Assistant at Architect49 (A49) Bangkok,Thailand

- VOCO Hotel in Bangkok, Thailand (Renovation) research, existing, modeling, schematic design, and Planning
- U-Tapao Rayong-Pattaya International Airport (Renovation) modeling, schematic design, and Planning
