RELEVANT WORK EXPERIENCE

2021	JANUARY-MAY	INTERNSHIP EXPERIENCE, ARCHITECTS 49 LIMITED BANGKOK <ul style="list-style-type: none">• Researched and prepared slides for client pitches, which contributed ideas• Design, decorate, and adjust the atmosphere of the connecting bridge MQCU (the Sky Walk) by modifying the programs Photoshop and Enscape, adding tree shadows to the location, and designing various patterns for the Sky Walk.• The original Banthat Thong Road Fire Station design was developed, and a new interior was designed using the building's original columns and beams.• Design, develop, and decorate isometric usage patterns in MQCU projects, divided into usage categories such as education, innovation, business, and entertainment.• Design collage art images to create a visual atmosphere for future use within the project and to present the project, divided into usage categories such as education, innovation, business, and entertainment.• Customization of the bridge structure By designing the structure, modifying, and clearing the preliminary design PROBLEMS ENCOUNTERED AND HOW TO SOLVE THEM <ul style="list-style-type: none">• During work, there may be problems starting work at certain stages of each assigned project. because it is the successor to design development and drafting from within the team. which may delay the initial work. However, by discussing and understanding the project, design and drawings, or nature of the desired building with the team, boss, or seniors in the company, work can move forward continuously. If there is any doubt about the work-in-progress, it will consult within the team on the ongoing problems that arise. In order to achieve the goal of speaking correctly.
2022	PRESENT	WORK EXPERIENCE, FREELANCE <ul style="list-style-type: none">• Create a rough drawing. preliminary design Analyzing preliminary information Propose ideas to the employer for design development, such as factory design. home design PROBLEMS ENCOUNTERED AND HOW TO SOLVE THEM <ul style="list-style-type: none">• Design and drawing There may be some problems in communicating the needs of the employer during the initial project design. because most of the conversations are via text messages. But it's just a minor problem for me. Because there were always discussions and documents sent during the design or modeling process. Every 1-2 weeks, I travel to adjust my understanding of the employer's project.

	I was able to use the basics of the program to work through online classes and had a basic understanding of the tools. who are studying and practicing more.

INTERESTS

GAMING	Interested in games that involve planning city buildings and urban development I like urban planning. Limited development time and money management in development or designing buildings in the game Zones of the economy: housing, trading, examples of games Cities: Skylines, Simcity
PHOTOGRAPHY	I like and enjoy photographing places and landscapes in the places I visit. or to travel, I also like to take and collect architectural photographs to study for design knowledge. And I'm still learning how to use Photoshop.
TRAVEL	Always enjoy traveling and engaging with the culture of a place that is different. I have organized many trips to other provinces culture of a place that is different. which is traveling both as a family, with friends, and alone, and in the future there are plans to organize a trip abroad on their own.
BOOKS, ARTICLES, DOCUMENTARIES	Types of self-improvement books, lifestyle concepts, and financial business This allowed me to develop my identity and understand the nature of time. I love the details of the architecture books, the concepts, and the nonfiction aspect of space. Current and future technology, including its existing nature and future projections It makes me enjoy living and traveling.
MUSIC	Music genres I'm interested in usually classical, jazz, pop, country, and orchestral genres. Most of the time, I like the music more than the vocals. because it always relaxes me. I can also play some basic guitar, with which I can sing and have fun with my friends very well.
ARCHITECTURE	I'm always interested in classical architecture. Neo-Classical architecture, minimalist architecture, sustainable architecture, especially sustainable architecture, which is an important part of the present and the future, I always find information about sustainable architecture through documentaries, books, articles, or related movies.
