# WORK - LIFE - FLOW

WORK IS DIALY LIFE WITH NO PRESSURE

Architects are professions that gather a various of knowledge to connect to the understanding of human behavior in every era. Understanding history to realize human and natural bonding. Be a part of the nature is our job for ten thousand years with "Architecture". Because Architects are not just architectural designs, but designed a lifestyle. Architects therefore truly affects to society. Creative or destruction is on our hands. Consequently, architects is must be high responsibility on thier mind. We can not avoid this agenda. Architects would be a knowledges seeker for interpretation and represent to the architecture for the people. Be humble and understanding others. Open mind for new things all the time. Be willing and enjoy the work. Let it flow with life, then our life will be happy.
