Experience

Jun Igarashi Architects (Sapporo, Japan)
July - August 2017

Started working with residential project for the first time, figure out the concept and theme to suits clients needs. Gaining a strong understanding of the practical design approach and how the concept procedure works within the actual studio practise.

Takeshi Hosaka Architects (Tokyo, Japan)
July - August 2018

Got to help the studio with train station competition projects and assemble both 3D and physical model. Able to exchange idea and thoughts with co-workers. Understand more of the practise environment compares with 2017.

KSS Architects (London, UK)
2018 - 2019

Got a chance weekly to study PEDR throughout the final year with KSS Architects. Learn how each project and professional practise run through the offices and how does the Planning application work, such as Liverpool training center.
