T. | 086 - 6101996

“ Passion in Propotion ”

My name is Karn, graduated student of Interior Design from Silpakorn University, Thailand. From what I study in university I do believe that interior design are initiative, problem solving and approaching people's idea rather than just being nice and eye-catching. My passion is to develop variety of design to match people's requirement.

My personal interest is travel and architecture as well as I like to explore the different cultures and places worldwide.
