PROFILE:

I am willing and able to work long hours to meet the deadline. I actually thrive under pressure and I am intensively ambitious in my career, goals and objectives. The prospect of learning with your firm is a great opportunity and I would give my best to generate the best outcome required. I can design my career and collaborate with designers and planners also with leaders who can make the community better with smart habitation.

CAREER OBJECTIVE:

Seeking a challenging position in your organization to utilize my skills and abilities in architecture and engineering which offers a professional growth while being resourceful, innovative and flexible.

STRENGTHS:

Result oriented and able to work independently as well as with teams. Seeking design with flexible and open-minded approach. Attention to detail during any implementation while keeping to schedule.
