O B J E C T I V E

An architect with a vision of both aesthetically and structurally sound building considering the functional perfection and the sculptural beauty to make a building living friendly. Want to contribute to an institution that contributes commercially or educationally for the development of the architectural sector of Bangladesh as well as learn and expand my knowledge base in the architectural field.

A creative artist experienced more than ten years in 2D design and 3D techniques seeking to join a dynamic production environment where my experience, education, and hard work will contribute to the success of an established organization.
