**ARCHITECTS 49 LIMITED**

Dear Sir/Madam

I'm thrilled to see your post for a **junior architect / architect** position. I am writing to express my interest in this position. As architect that look ahead with the same clarity of determination and enthusiasm to learn. What if we could challenge to what we want to change the future.

In architecture, from my point of view architecture is, competition with myself to create a mass of creativity. So, the architect to be someone who can do complicated tasks at the same time. I'm attracted to this position, because I'm looking for more experience, opportunities to learn new things in field and try to growing up with the company.

**A49** is the first workplace That made me learn to work like a professional and systematic working style. Moreover, the design style of the A49 is more timeless, raw material, minimalism etc. Which is in line with my own design style. It attracts attention. I think if I could be part of it. Certainly, working happily and enjoying it. I hope that I can demonstrate to you that I would be a good fit for your company, with my proven skills, commitment to the role, and enthusiasm to learn.

In addition, an architecture design experience with over 2 years. I have experience worked at VESSU Collaboration ltd. As an architect designer. I working on projects during all design phases, from designing concepts to drawing plans, creating renderings and making presentations to our valuable client's.

The portfolio is attached. If you think I am suitable for this position and you are interested to interview me or have any questions, please don't hesitate to contact me at my phone number 090-1735818 or my email address [supanut.le@gmail.com](mailto:supanut.le@gmail.com).

**Thank you** for your kind consideration. I look forward to **Working** with you.

Sincerely,

Supanut Lesiriwanich
