Soi Kanchanaphisek, Bang Khae Nuea,
Bang Khae, Bangkok 10160

Attitude

I'm a young designer who is interested in sustaining architecture, and in a search for a paradigm shifted technology where it transforms the whole process from design and build to the way we experience it. I believe that a good design together with technology will bring a harmonious living between us (humanity) and our environment.

Professional Experience

Boondesign Co., Ltd. - Architect

| Oct. 2018 - present

- In charge of producing a precise and refine detail construction drawings and permit drawings on low rise luxury residential larger than 1000 sqm, with AutoCad and Rhino.
