

ADNAN HANSIA

ARCHITECTURAL DESIGNER | ENTREPRENEUR

"Whatever you are doing today, do it with the confidence of a 5-year old wearing a superman T-shirt"

WORK EXPERIENCE

Founder and CEO of Perception Design | 2021-present | perceptionbh.com

- Create, manage and oversee business activities with an expanding international team of 20 talented individuals
- Develop, market and copywrite competitive business and pricing models according to time and work deliverables
- Project earnings, balance budgets and maintain profitable business model since the start of all operations.

Junior Architectural Designer at EMAAR Engineering | 2019-present

- Produced more than 28 design proposals in the span of 2.5 years
- Responsible for the preparation of preliminary and detailed design proposals, utilizing a range of media (sketches, 3D models, perspectives, animations etc.)
- Developed architectural design solutions covering a wide range of building typologies (residential, commercial, recreational, educational, industrial, religious and mix-use), utilizing research-driven creative processes
- Project tendering from contractor pre-selection, obtaining quotations, tender evaluation and assisting in final contractor selection.
- Assigned responsibility for all multidisciplinary coordination aspects for all my assigned projects
- Responsible in preparing compliance documentation for coordination with all relevant statutory authorities and regulations
- Consistently completed tasks within a fraction of allotted timeframe compared to colleagues, due to utilizing Revit and Dynamo automation
- Responsible in assisting draftsmen in detail and working drawing production, QA/QC of design development and production drawings
- Championed company rebranding by kickstarting and organizing the relaunch during the initial phase (website, community outreach, media presence)
- Responsible for assisting the firm's public image in regional and local events

EDUCATION

- University of Bahrain - Bachelor in Architecture | 2014 - 2019
- Al Noor International School - Science Branch | 2011 - 2013

HIGHLIGHTS

- Achieved two promotions at Emaar in the span of 8 months (2022)
- Moved Perception Design entirely to a semi-automated state by utilizing a paperless process, increasing productivity and efficiency in back virtual office, enabling employees to have more quality time on main objectives (2022)
- Crafted and launched a successful website platform and online ordering system to boost online site visitations during the pandemic (2021)
- First Place Winner of The Jusoor Monument Design Competition, from University of Bahrain in collaboration with The Ministry of Works (2020)
- Handpicked by chairman to represent the firm in regional events such as The Big Five and Index Dubai (2019)
- Shortlisted for Best Senior Projects Graduation Exhibition (2019)
- Shortlisted for Eskan Bank Award For Creative Engineering (2018)

PROFICIENCY

- Autodesk Revit & Dynamo, Autocad Architecture
- Adobe Photoshop, Illustrator & Indesign, Microsoft Office Suite
- Sketchup, Lumion 3D, Enscape 3D, Vray

PROFILE

Registered Architectural Designer and self-taught entrepreneur. Armed with a wide range of versatile skills,

I pride myself on my ability to serially innovate by constantly revamping and improving numerous approaches in all areas of my work and personal life. I believe architecture should be created to have a dialogue between nature and humanity.
