Test - One of the largest and broadest architectural practices in Southeast Asia, the 49GROUP is a multi-disciplinary firm of design professionals and consultants forming a combined staff of more than 496. Headquartered in Bangkok, the Group integrates Architects 49 and 9 other specialized consulting companies, each supported by a staff of experts:

Architects 49 Limited | A49  
Architects 49 House Design Limited | A49HD  
Interior Architects 49 Limited | IA49  
Consulting & Management 49 Limited | CM49  
Landscape Architects 49 Limited | L49  
G49 Limited | G49  
Architectural Engineering 49 Limited | AE49  
ME Engineering 49 Limited | ME49  
49 Lighting Design Consultants Limited | LD49  
GA49 Limited | GA49

Most of the companies are housed under the same roof, while others are situated nearby. The group is thus organized to allow teams to work side-by-side, assuring the client of quick, efficient, and thorough service. Together, these firms are able to handle architectural projects of almost every type and scale. Operating on a basis of strong teamwork, the 49GROUP emphasizes collaboration and the sharing of skills, resources and experience. At the beginning of each project, the affiliated companies establish an interdisciplinary working team of experienced personnel, led by a principal. The team includes

project managers in each required discipline, who guide their staff to work in coordination with one another on the project. This methodology pools the company's resources and ideas to find the best solution whether it involves design, engineering, construction management, project development, or the building's utilization and longterm maintenance. Decisions reached collectively in this way often save time, effort and cost. The 49GROUP does all it can to ensure that results are high quality and that the client is satisfied.
