

JULIO L. ENDARA - ARCHITECT MSc

I am a hard working and highly creative architect born in Ecuador and living in the Netherlands after completing the MSc programme in TU Delft. I have eight years of full time work experience (five in Ecuador and three in The Netherlands). I am familiar with the process of conceptual analysis of a project as well as with all the phases of architectural design, from the creation of master plans and partis to the detailing phase. I consider myself to be an architecture enthusiast and I am always seeking to learn more and to be in constant evolution through my work.

WORK EXPERIENCE

02/2021 - PRESENT DAY **MIR ARCHITECTEN**
ARCHITECT: I was hired in this studio to work in a total restructuring urban plan for the city of Krefeld in Germany. The detailed work we have done has covered urban analyses proposals to the creation of morphological design rules that control and create order to the built environment of the city focusing on facade design, consistent proportions and specific dimensions of the constituting elements of architectural elements. Apart from that we have also focused on dwelling design and refurbishment.
Amsterdam - Netherlands www.mir.nl

10/2019 - 01/2021 **MOOIJ ARCHITECTUUR**
ARCHITECT: I was contacted by one of my former tutors from TU Delft to help him with a redesign and refurbishment competition for a VMBO school in the north of Utrecht. After we presented our proposal fortunately we won and he was able to employ me. Since then I worked in this studio and I focused mostly on this project by doing work that goes from producing some expressive and visionary visuals to detailing and redrawing many existing and new situations on the building.
Den Haag - Netherlands www.mooij-architectuur.nl

01/2016 - 07/2017 **PATRICIO ENDARA BACA ARQUITECTOS**
ARCHITECT: Design partner in multiple large and small scale projects. I was responsible for developing preliminary ideas and concepts for the projects. The work I did was creative and technical and we focused on multiple typologies that go from social housing to state buildings and facilities.
Quito - Ecuador www.patricioendara.com

05/2015 - 01/2016 **ARQUITECTURA X (ADRIAN MORENO & MARIA SAMANIEGO)**
ARCHITECT: I was hired to work in a highly dense social housing project located in the city of Quito. As part of this team I went from working in the preliminary analysis to the design phase and finally to the development of the constructive details.
Quito - Ecuador www.arquitectura-x.com

10/2008 - 04/2015 **PATRICIO ENDARA BACA ARQUITECTOS**
ARCHITECTURE ASSISTANT & DRAFTSMAN: Part time assistant on various projects. My work during this period consisted mostly on model making and sketching.
