

CIVIL ENGINEERING STUDENT

KANTAPHIT BOONPROMMA

PERSONAL PROFILE

A civil engineer graduate looks to leverage the in-depth knowledge of structural analysis to drive success in the building project at AE49, where can I apply my knowledge to support the structure team to complete structural design.

HARD SKILLS

I has been learn about things that civil engineering student must know in university such as structure theory, structure analysis, construction management etc. I used to learn about BIM such as Revit, AutoCad, Microsoft project, Primavera P6.

OTHER SKILLS

- The ability to analyze problem on field.
- Excellent problem solver
- Good listener
- Enthusiastic person
- Good at communication

INTEREST

I studied in faculty of Civil Engineering because I were interestrd in construction work.

When I have my free time, I would like to go out to take a film photography.
