## SOFTWARE PROFICIENT

---

- ETABS
- SAP 2000
- AUTOCAD
- Microsoft Office

## SOFT SKILLS

---

- Service Orientation
- Attention to details
- Creativity
- Working under pressure

## LANGUAGES

---

- English
- German ( Basic )
- Thai

## ACADEMIC BIOGRAPHY

---

I am graduating from Chulalongkorn University in the Faculty of Engineering, majoring in Civil Structural Engineering. My lasted project involves the "Structural Efficiency Improvement of Tall Buildings Under Wind Load and Earthquake Using High Modulus Concrete (HMC)". My research focuses on how tall buildings in Bangkok respond to the wind and earthquakes when using HMC instead of ordinary concrete and determining the worth of using HMC in high-rise buildings.

## WORK EXPERIENCE

---

### Civil Engineer Intern ( May - July 2017)

#### Visavapat Company

- Calculated the Cost of Materials
- Dealt with the consulting personnel to resolve the construction method
- Inspected the construction procedure to comply with the standard

## EDUCATION

---

### Chulalongkorn University (2019-2022)

Master 's Degree : Structural Civil Engineering

Thesis/Research : Structural Efficiency Improvement of Tall Buildings Under Wind Load and Earthquake Using High Modulus Concrete

### Kasetsart University (2015-2018)

Bachelor 's Degree : Water Resource - Civil Engineering

Thesis /Research : Chlorine Distribution Analysis in Water Distribution System of MWA Samut Prakarn Branch Office

### Chulalongkorn University

### Demonstration School (2009-2015)

Primary and Secondary School
