Education & Experience

I am interested and believe I would be, an excellent for the Junior Lighting Designer position. I am finished Bachelor of Architecture. GPA 3.03 During my study in the Faculty of Architecture and Design, Rajamangala University of Technology Phranakhon. I have been workshop at Shibaura Institute of Technology, Tokyo, Japan. and Internship at Spacetime Architect Co., Ltd I have gained learning about analysis for Architectural, Interior design, Aesthetics, and Drawing program for Presentation My Software skill. Such as SketchUp, AutoCAD, Photoshop, Lumion, Enscape, and Revit. During my work at VJITR Design Studio Co., Ltd my Responsibility is Research Design, Drawing Detail, Lighting, Landscape, Interior and Exterior Design for Projects House, Restaurants, and Medical facilities. I'm certain that I will be able to apply this knowledge to the position Junior Lighting Designer, particularly the task-related research about Material, Innovative, Lighting, Sustainable Design, and joining with teamwork at your Company. I'm attracted to this role, and I hope that I can demonstrate to you that I would be a good role and have the enthusiasm to learn.
