ORCHARD TOWER

BAHRIA ORCHARD LAHORE

Apartment Building for Sheikh Tahir Muridkey punjab Pakistan)

i seek to respond diligently to environmental and climatic concerns, In every project, my intention is to provide a service of the highest quality. The floor plan area of ground floor is 10,000 sqft and it is consider to design with classical architecture although the interior and its exterior also follows the classical architecture style and it has 8 floor and 1 basement for parking which does fullfil the client”s brief. The site is located in urban area of pakistan so it is a biggest achivement for me to design this elegant project which was one of its kind in that area.The planning is done with buble diagram and sketching on butter paper however all of the facilities & needs have been provided for client’s satisfaction ,however provide a calm and peacefull environment according to their needs so they feel like their dreams come true to live like in heaven.

Floor Division

basement = parking ground floor & first floor = commercial shops 2nd to 8th floor = apartment

PROFESSIONAL BEAUTY SOLUTION SUNDAR LAHORE

Iconic symbol

Entrance Gate

this entrance gate is designed for **Saremco Group** as you noticed saremco the first alphabet is “S” and also you can see this “S” in bird eye view pictures.....

i believe that design speak it self what should it is designed for.....

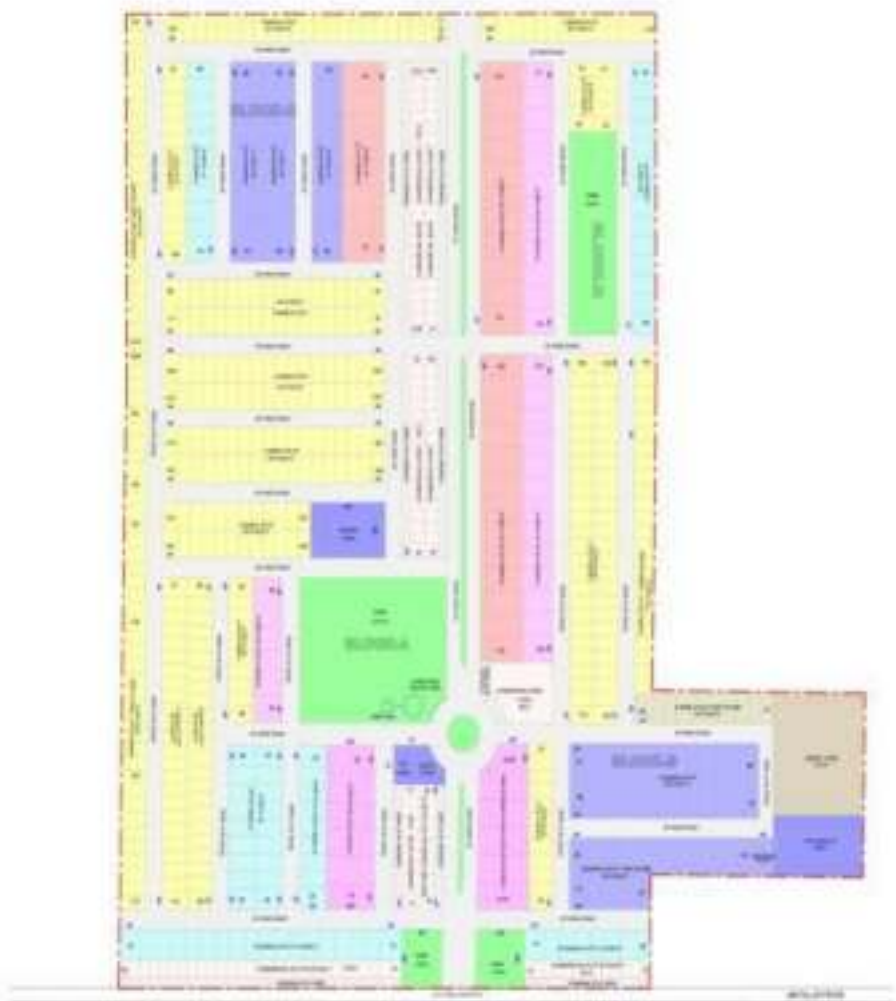

Going to build at **Roshan saremco, pak valley, blossom avenue, chenab garden toba tek singh & sialkot ,saremco garden shah kot,war button ,**

And also where saremco develop a society
