Is jogging outside part of your workout routine?

Let's get new experience here. Try our top route to explore Bangkok city from morning to night. Unlike treadmill running, which provides a pretty one-dimensional workout for the body, running outside is unpredictable in terms of the incline and decline of terrain.

OPENING HOURS
6.30 AM - 23.30 PM
DAILY

Grab your favourite running shoes, warm up, start out slowly and build up speed as you go. Pace yourself to be able to last until your set goal.

RUN UP DINE ABOVE

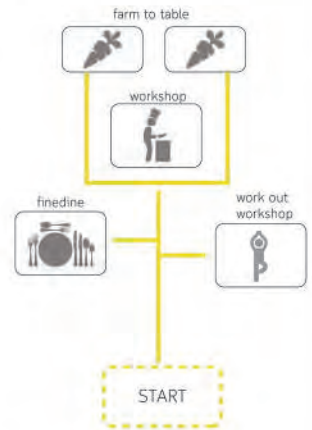

What do you prefer for dinner ?

To enjoy cuisine that could not replicate at home. Many dishes in our fine dining restaurant are extremely labor intensive, use rare and organic from Thai's agriculturist and highly specialized equipment.

Find the right sequence, We are serving starters (hot / cold). Next up are the first course through the sweet. Booking first by call us then come to get a precious taste and wonderful moment.
