My Working Experience

Co-operative Education

PARAMIN CONSTRUCTION CO., LTD. 21 December 2020 - 11 April 2021

The construction project of Satit Demonstration School, Khon Kaen University. 5 floors (including G level), The budget was set at Baht 224 million.

The construction project is in the process of a bored pile dry process when co-operative education begins. Due to the construction of many houses making it possible to see the construction of houses in several milestones.

Therefore, after closely monitoring the dry pile drilling process, problem-solving analysis, and guidelines for preventing problems from recurring, In conclusion, from the problems that happened, the project "Analysis and corrective action of bored pile dry process: A case study of Satit Demonstration School, Khon Kaen University." was chosen for study.

My Working Experience

The construction project was already completed 52 units from 168 units when the internship begins. Due to the construction of many houses making it possible to see the construction of houses in several milestones. Taking on the role of a site engineer in charge of houses No. 29, 71, and 82.

My Hobby

Film camera photography

I have a hobby as film camera photography. The charm of the film is different from digital cameras. Each shot is carefully analyzed to obtain each image.

Film camera shooting is quite manual. The film camera gives you the same mood as using a theodolite wild T16 survey camera that civil engineers used for the survey. Makes every time you use it, there is a challenge in it.

One of my pride is that the photo I take has the opportunity to go public. I have submitted a photo to compete in the film exhibition "Outside the screen" organized in Khon Kaen province and was selected as one of several photos displayed in the gallery of the Der la coffee shop branch in Khon Kaen.
