

PANUWICH SUKJA

Experienced BIM Coordinator with Licensed Professional Practice (Associate Civil Engineer), passionate about designing using BIM and 3D modeling software, including Navisworks and Revit. Seeking a challenging role as a Structural Engineer in a dynamic work environment to apply my expertise.

EXPERIENCES

BIM Coordinator Jun 2023 – Present

Stonehenge Inter Public Company Limited

- Collaborate and coordinate with contractors to ensure the accuracy of the model in accordance with the construction drawing, facilitating communication via cloud systems like BIM 360 Docs or equivalent platforms
- Inspect construction work using Revit, Navisworks, and AutoCAD
- Detect, manage, and provide clash reports for structural work, architectural elements, mechanical, electrical, and plumbing systems; coordinate with designers for issue resolution under the guidance of the BIM Manager
- Supervise and monitor 3D models to ensure quality, accuracy, and compliance with BEP
- Prepare documentation for quality assessment of BQC and create comprehensive BQC summary reports
- Utilize Microsoft Project for developing shop schedules and tracking shop drawing submissions, ensuring efficient project management
- Conduct weekly meetings with the project manager and project team, while also preparing meeting minutes
- Update progress S-curves and progress status to effectively control work according to the plan

Site Engineering Intern Mar 2022 – May 2022

Chawakorn Engineering Limited Partnership

- Chiang Mai University Parking Lot
 - Conducted concrete paving finishing work, including joint sawing and form setting
 - Operated a shuttle buggy to pave roads with asphalt using heavy equipment, demonstrating strong teamwork and operating skills
 - Maintained work areas in a clean and orderly manner
 - Repaired road surfaces
 - Monitored traffic control, executed general labor duties, and participated in paving and patching
- Don Kaeo Community Hospital
 - Coordinated and conducted site inspections for construction project
 - Provided assistance with issues and promptly reported them to the supervisor
 - Conducted thorough audits and monitored construction activities to ensure compliance with project requirements
 - Rectified and corrected any substandard work to maintain quality standards
 - Accurately estimated project costs
