

July 14, 2021

Dear Hiring Manager,

I would like to apply for the position of “Structural Engineer”. The role is very appealing to me, and I believe that my technical experience and education make me a highly competitive candidate for this position. My key strengths that would support my success in this position include:

- I have designed and analyzed (structural) different hydropower components like powerhouse, hydraulic structures, truss, intake structures etc.
- I have experience in site supervision and in implementing a project in the site which is very essential in civil engineering world.
- I have sound knowledge in Finite element analysis, softwares like SAP, STAAD.pro etc. and performed the non-linear finite element analysis of a composite wall using ABAQUS as thesis in my master’s degree.

With a master’s degree in Structural Engineering (4.0 CGPA), I have a comprehensive understanding of the structures behaviors and of practical application of civil engineering theories. Please see my resume for additional information on my experience.

I have taken one doze of ASTRAZENACA as the prevention from COVID.

I can be reached anytime via email at sijwalg@gmail.com or by cell phone, +660927692933.

Thank you for your time and consideration. I look forward to speaking with you about this employment opportunity.

Sincerely,

Mr. Gokarna Sijwal

Phohon Yothin 45, Bangkok, Thailand
