

My name is Mang Kop Cing. I am a resident of Myanmar and have finished my Master's degree in Construction Engineering and Infrastructure Management at the Asian Institute of Technology in Thailand.

In addition to my studies, I am engaged in part-time employment as a student assistant and project coordinator within the field of construction management AIT department in Thailand. This role involves collaborating closely with esteemed faculty members, contributing to project coordination, and overseeing various administrative tasks. Notably, I am responsible for managing the department's official Facebook page, ensuring it remains a dynamic and informative platform for our academic community.

My experiences in this position have not only enhanced my organizational and coordination skills but also provided me with valuable insights into the field of construction management. Working alongside dedicated professionals has been instrumental in my academic and personal growth.

My academic journey has provided me with a foundational understanding of construction, engineering and infrastructure management, real estate, complementing my focus on construction management. Furthermore, my thesis focuses on the realm of organization factors influencing service quality of the construction companies and its impact on customer satisfaction, equipping me with the required skills to ensure exceptional customer interaction.

I humbly request your kind consideration of my application for the open position. I am confident that my academic background, practical experience, and dedication align seamlessly with the requirements of the role and the ethos of your organization.
